Dear Bob and Janet -

I'm finally getting around to sending the pictures and negatives of your 50th. I had made some laser prints for framing of the long pictures I had put together. Can't find them now. I know they have frames at Wal Mart for around four dollars or so in long rectangle shape.

The sweater is for Erma from Mom. I do hope she is doing well, and is happy, and no pain. We do think of her often and hope to get to see her when the weather is better.

Mom had a T.I.D or mini stroke a week before Christmas and didn't know family members was in a 'fog' doesn't remember

things she should have. She still
has no idea what she was like -
doesn't remember a thing. She is
better, but we have to watch
her closer. She is not too alert
on what is going on around her
or in the "now" time wise. We
don't say anything to her. It's hard
on George and Jo living with her,
I'm there off air, take her to Church,
bank, etc. I do have power of atty
for her and she has a living will.
We do want her to be as healthy
and mobile as possible. She is on a
new medicine that is suppose to prevent
strokes. That is good news for all
of us.

Hope all is well with you. We
enjoyed your booklet on your trip
to the Grand Canyon. Glad you
had a good time.

Love to all -

Anna Bell + Isabelle
