Dreams, etc.

**HAYER-LOCKHART**  
LABORATORIES

11-21-79

This is a dream. I wrote down two years ago and just found and am recopying it. (12-6-81)

There was a large bridge across a river. It was in terrible shape with ruts and debris. It was almost like an old railroad bridge. As Nancy, Mark and I got about half way across a train went by slowly going the other way.

It stopped and the engineer said we must go back because the water on the other side was contaminated and no one could go over. A young woman in front of us didn't seem to hear so we told her.

I told the engineer that the rest of our family was on the other side and he said no one could go over now so we turned around.

We were suddenly in a car and someone else was driving (I don't remember who but it was a woman.) She was frightened because there were a lot of bridges so I said

I would drive. I drove up  
and down the hills very fast  
but very carefully especially over  
the small bridges. I woke up  
just as I drove over another  
small bridge and remember the long  
uphill drive left in the distance

7-25-81 approx.

I was in the basement in a small room. There was someone else there, I believe, but I don't know who. I looked toward a window that was cloudy and dirty except for a small clear space in the center. Through this space I saw a very bright light and was curious to know what it was. I got up and went to the window to look out.

In the distance I saw a very distinct outline of North America filled in with bright colors. I believe Canada was orange or red and the U.S. was green.

The bright light began to take form and it was a crucifix just above the Great Lake area. As my eyes followed the light a rosary attached to the crucifix took form making a circle around the U.S. Each bead had the same brilliance as the crucifix.

I wondered then if this were a sign or message from God and

I asked for a sign telling me if  
it was. Then a shower of very  
brilliant lights fell across  
the states. I wanted to know what it meant.

7-26-81 approx

Bob, Mark and I walked into  
a church from a door near  
the sanctuary. As we started to  
cross near the altar I noticed  
a procession about to pass so  
stopped. Some little girls in  
white dresses were approaching  
the altar. I could see some  
people that we ~~know~~ at  
St. Justin's several years ago - all  
dressed up sitting in a front pew.  
Bob went on but Mark and I  
stopped because there was a procession.  
The bishop - with thick dark hair and a  
very warm, smiling face greeted us. He  
shook hands with Mark as I introduced  
them and then he shook hands with me.

8-2-81

1. I was taking apart a Dresser. I took off the outside and found that the inside was so sturdy and strong I did not want to throw it away.
2. I was in a basement room. Chairs were lined up against the wall to the left as I entered. Other chairs were in some disorganized manner. I sat down on the end to the left of the door. John Gardner and David (although a young David then he is now) came in. We said hello and they sat down in the same row. Other people came in and sat down for a church meeting. Joan Gardner entered and sat down next to John. There was one person between us so we said hello and smiled to each other looking at each other from behind the person between us.

A man leading the meeting started. He asked me a question about raising children. I began to explain the difference in the way we raised our older children. We were much more authoritarian and they were not as free to ask questions about sex, for instance, and I was going to go

into more detail but there were young children present so did not. I thought that because of my lack of handling question about sex when I was very young (19) was due to my lack of information because my parents did not talk about it or give me any information. I learned how to explain things to the younger children and was comfortable doing so.

During the time I began to talk there were young boys from the High school that were running through the room to an athletic field or gym on the other side - extremely disruptive. I was not very bothered by it but the leader of the group was.

3. I was in the basement of a church. I had to go into a room to get something but a sister came out and said she just mopped the floor and it was still wet. However, I found that by stepping on some small rugs I could go across it without getting any tracks on the wet floor.

I got to the other side. I had to  
hurry to get to work at Sutter at 8:30.  
The clock was fast however so I  
had more time than I thought.

8-4-81

1. Another woman or young girl (?)  
and I ran through a large field  
where young men were playing  
several different kinds of games.  
We dodged the balls and men to get  
to the other side. Some of the men  
were former secondary friends of Jim's.  
There were shallow ditches that ran  
along the <sup>side</sup> lengthwise and the field  
was dirt.

2. I was in the basement and  
running through door after door.  
There was a mens gym on the left  
and the doors folded as I went  
through them so the view to the  
gym was obscured. The doors were  
very large and old like barn  
doors that needed a paint job.  
It was a long corridor and I went  
quickly from one end to the other  
and then woke up.

8-4-81. Cont.

3. I was in a basement room with Donna. I believe we were planning a party and Donna suggested we make something for the children. Skip came in for only a few minutes made a mess of it and looked a little disgusted. (I don't remember much of the details of the dream).

8-8-81

1. I was driving the car in a very old district. Bob was with me. We were trying to decide whether to turn left or right. I looked to the left and saw an arrow pointing in the direction we were to go. We both decided that must be the marker even though the arrow was not a neatly stenciled one but painted on rather sloppily. The road was like a cloverleaf and very steep with a large curve.
2. I was walking in an old part of town and bought a coke to drink. I opened it and drank a sip. A man dressed in old clothes like one of the

downtown vagrants, came up as I walked. He asked if I wanted his drink. It was lemon-lime or something that was not as sweet as coke so I took it, checked to see how much of it was gone (about half) and then said, "Okay, thank you." I then gave him mine. I walked on ahead of him. I began to get a little frightened because it was a very dark old neighborhood and I had the feeling that he was following me. I began to walk faster and I heard his steps speed up and he began to run so I did, too. When I arrived at the next street I had to turn one way or the other so I turned right. He ran to the left still running and as I looked back he was standing there laughing. I believe I was relieved and a little angry.

B. I went into an old cluttered store to buy a pair of shoes. I was wearing a pair of boots made of soft brown leather, fairly worn, and they had short tops. For some reason the clerk thought they were for

Kathy (the ones I was to buy) or I told her, not wanting her to know they were for me. The clerk was grumpy or at least did not smile and seemed kind of depressed and sad.

It was as though I were really buying the shoes for me now. (the way the dream changed). The clerk went to

find the shoes in the back of the store but I hadn't told her what kind I wanted. She was gone for a long time. Another

clerk came to the counter. She was quite happy and very

enthusiased about a pair of shoes that she thought I would like.

I wanted a pair that was comfortable and looked good also. She brought them out and just then, the other

clerk brought out 3 pairs which were a very old style and I looked at them and told her that they were

not the kind I wanted. I slipped one foot into the shoe that the other clerk brought out. It had a <sup>low</sup> ~~small~~ heel. There was a very pretty tan colored plastic piece that fit over my foot from

the toe to about half way up my  
foot. (It seemed to be a clear plastic  
first but then it was the tan color.)  
It had no toe or heel. There was a  
small round piece of spongy rubber  
material that fit over my big toe  
to protect it from rubbing but it  
wouldn't stay on so I took it off.  
The shoe felt a little too much and  
I mentioned that most shoes I tried  
on were B's and I wore an A. I  
wasn't sure it would stay on  
properly when I walked because it  
seemed a little loose so I was  
going to try on the other one so I  
could walk with both of them on.

I wasn't very convinced that they  
would fit okay. I make up then -  
3. I was driving a car at night  
and there was a measuring device of some  
kind attached to the accelerator. There  
was a metal piece that had to go up  
and down 5 or 6 columns <sup>on a small piece</sup> of paper.  
It was like a small roller on the top of  
the metal piece that would automatically  
run down one column and come  
back to the top of the next. I believe

at the top of each column it said 10-20-30-40-50. The device kept coming loose and I would have to lean down to reattach it. I saw a police car some distance back and I was worried that he would stop me for weaving, thinking I was a drunk driver because it was hard to keep the car really straight as I bent down to fix the device. I then held the car very straight but it was difficult to do while leaning down.

I decided to stop and reattach it so pulled over to the side of the road. A man in another car stopped ahead and backed up to offer help. It was rather dark but just then a car light shone from the other lane and I looked over to see the police car. He came over and looked at the device and said all you had to do was tighten a little screw to make it stay on so I did or he did. (I don't remember). I felt relieved that it was fixed.

Just then Nancy Patterson, who had gone on way ahead had remembered that we were to keep an eye on each other. The sun was just coming up and it was a really beautiful sunrise.

4. Nancy Patterson and I went into a small cafe. The area was very quaint, something like Old Town in Los Gatos. We ordered something to eat. I believe a roll and coffee and ate. I finished, paid and went out the door and walked down the sidewalk a short distance and was going to continue but then wondered if I should wait. There was a table and chairs on the sidewalk. I sat down for a minute and then walked back to the cafe and saw Nancy, Barry and Peggy at the window smiling and waving.

8-10-81

I was sitting in the back seat of a car <sup>was</sup> being held captive. A man was holding many women captive. They were working in a field and he had gotten out to do something in the field. Two girls began to run to escape and he shot them both but they continued to run across the road and into a field and appeared to escape.

I suddenly thought that I could escape also and jumped quickly into the front seat and started the car and took off before the man could get there. I crouched down low so his shots would not hit me. The car wobbled and I could barely see out the windshield but I could guide the car okay. I then woke up.

8-12-81

I remember part of a dream so will write what I remember.

I had the feeling that I had the dream many times and wanted to stop the dream. There was a ~~terrible~~ <sup>rock</sup> rock wall - very thick and high. I wanted to go through it but was terribly afraid to because I feared I would be absorbed by it.

I finally worked up the courage and began to get the feeling of being absorbed but at last I came back through it. I had a really good feeling and was very happy that I had been successful. I was glad also that I had not stopped the dream.

8-13-81

I was in a basement room of a school. Bob was there and one more standing in the corridor outside the room where a meeting was to be held. It was time for it to start so Sheri Alue and I went in and sat down in chairs against the wall. Someone was leading the meeting. There seemed

to be more than one person and they were discussing something. I got up several times and went out quietly and came back in. One time I remembered that I hadn't told Bob that I needed a ride home with him and we had made an agreement that if I didn't let him know I needed a ride home he would go on. I found him in another room told him and went back to the meeting.

As I walked in they had just had a drawing for some prize and had picked Eric and Mark's names. I thought they would have to send them the prize because they weren't present to get it.

One time when I walked out Bob went into the meeting and the door was not closed tight so I could hear what was going on or at least part of it. He was presenting something that was very funny and he was really relaxed and happy. I thought that it was so different than he usually is.

8-18-87

Bob and I, Nancy and Mark had taken a plane to Mimi + Pappys. It was time to pack so Bob went into a bedroom and took a long time to pack. I felt really rushed and didn't have a dirty clothes bag. Mark and Nancy had left clothes all over the floor and under the bed. I put them all into a pile. I started to try to find a place on the suitcase for all of our clothes but it didn't look like there was enough room.

Mimi came in a quietly said to Bob that the Salem airport was really crowded and we would have to hurry if we were going to make a flight.

I was worried about what I would do about not being at Sutter in time for school to start. I felt frustrated and rushed.

I picked up a striped shirt and couldn't decide if it was mine or one of Mimi's. I decided it must be one of hers and put it back.

8-23-81

① I was at a gathering of people in South Dakota at the farm where Romair and Lil used to live south of our farm. Rita Bener and Dorothy Strunk were with me and needed a ride back. I was going to let Diane take them but remembered that she couldn't drive back alone because she didn't have a license yet.

I went outside to find the car and seemed to be in a hurry because I wanted to get back. I walked to the right down the sidewalk and then over to the Volkswagon next to a tall building. Rita started toward a different VW on the left but Dorothy told her ours was to the right. We all got in and I buckled up and then started off down the street.

② I was holding some money for Pauline. Nancy was with me and I handed her the money in an envelope because I didn't have my purse. The scene changed and I was making my way upstairs to

see Pauline to tell her Zappy  
anniversary. I had some more money  
for husband when I got there  
I gave her one envelope and then  
remembered that I had another one,  
I started to worry because I couldn't  
remember where it was but then  
I did remember and asked Nancy to  
give it to her which she did.  
The stairs that I had gone up were  
old and not in good shape and the  
stairway was not very <sup>well</sup> lighted.

(3) I was standing in line behind  
one person in a room. There was a  
door just in front of the other person.  
I asked her to open it to see if the line  
was any shorter. There weren't many  
people so we left it open and I stood  
in line right in the doorway. I felt  
as though I was having a heart attack  
and was in really pain but figured  
it would go away.

(4?) The scene changed or it was  
another dream. I was riding a motorcycle  
through a very difficult path that went  
up through a room that had some lumber  
in it. I went through it with great

difficulty and went into an upper room where Lynn Reichold (the school board chairlady) was. She greeted me kindly recognizing that it was a hard trip.

8-29-81

Part of a dream I remember -  
I was hurrying to get my suitcase packed to follow Bob.

8-1-81

(1) I was driving up a hill and it was a gravel road and it had been raining so there was some water running down the edge of the right hand side of the road. I was on the right hand side and a car driven by another woman was coming toward me straight on. I thought, if I veer to the left she may get back on right side of the road so I kept on straight ahead. She veered to the right and sped along the narrow shoulder of the road where the water was running. I looked in my mirror and saw that she made it okay.

(2) I remembered only parts of the dream: at one point Shirley Jean Bussey was taking

care of her baby and then was cleaning  
the pitcher. I went to help but she  
didn't need any. Another part I was  
looking Bob back to Bussey's place  
and it was rather dark and I had  
to keep waiting for him so that  
he would find the way back.

At another place Jeanne Beloin had  
just gotten off a plane and we  
went to meet her. We greeted each  
other. I had a warm feeling toward  
her but when we hugged she didn't  
seem very warm but rather a  
little cold.

9-14-81

Diane and I were standing on the  
steps outside some building. 3 or 4  
young men came up to talk to Diane.  
I walked around behind 2 of them to  
go to the other side because I knew  
they wanted to see Diane.

10-3-81

Parts of dreams I remember: I  
was to take a group of kids on a  
camping trip. I waited in front of a  
class room but people arrangements

had not been made. Part of the kids showed up and were a little noissey and unruly so I walked them through the back of the classroom and out a back door where they immediately ran up a hill that was overgrown with weeds. I insisted that they come down and wait quietly until the others showed up. I was annoyed that the other adults and kids weren't there.

I was in a camper that was not very neat - quite a few things weren't put away. I started one of the burners but underneath it started to flame. I looked and saw a soap dish - plastic - burning. I was frightened at first but blew the fire out right away. The soap dish continued to melt.

Oct. 12, 1981

Bob and I were applying for college course. We had to wait in line for a long time. When we went out the <sup>back</sup> door of one building to wait in another line the whole yard between the buildings was filled with huge boulders and we both

ran over them and did it very well  
without falling. There was a group of  
chairs on the south side of the building.  
(I thought in my dream I knew where they  
were because I'd had the dream before.)  
We headed for them when I woke up.  
There were only men ahead of us in  
line. John Barber was among them.  
Everyone was "hurrying to meet".

10-22

A woman and a child were driving in  
a car and both were very sleepy.  
The woman was determined to keep  
driving and keep awake.

10-27-81

There is a large house with  
an upstairs and a big barn in  
the back.

Peggy is there and we are all  
taking part in something (perhaps a dance)  
and Bob is upset so I quit and  
walk outside with Diane.

Later I go upstairs and walk  
down a long hallway and go out  
through a door at the end and down  
to the street. Someone had just  
come upstairs and I don't want  
them to see me so I go out the  
door quickly.

The kids out in the barn are  
preparing a play. When I go out Diane  
is lying on a board about the  
size of a shelf and she moves over  
so I lie down with her. Mark and  
another boy are in the other room  
being very secretive about their  
part in the play as though they  
are doing or saying something wrong.

11-2-81

A big fat guy had several  
times escaped fire - staying until  
the last minute and then leaving.

This time several people  
decided, one included, left the  
small room because the room was  
on fire. The fat man had planned  
to escape but there he was resting  
on the floor by a bunk bed.  
Someone came to the door looking  
for him and said "He's not in  
there." and the flames then  
engulfed him. He opened his  
eyes in disbelief and fear and  
then closed them again.

11-15-81

I'm trying to find Sandy Henry, the nurse,  
to give her a copy of our (Babe's + mine) book  
that she asked for. Mrs. Benke (Teacher I worked  
for) was in the room working & doesn't say  
anything. When I went out the door she asked  
Sandy what I wanted. Sandy real excitedly  
said that I'm going to get our book.

I returned with the book and woke  
up just as I got to the door

11-17-81

I remember only part of my dream. Pauline came to see me. We went into the living room and sat down. I had to find a bathing suit for some reason so was busy looking for it. Someone else came in (I don't know who). I was looking out the window. I believe someone was coming up the wall. I was a little uncomfortable because the house was a little messy.

(12-1 next page)

12-6-81

There were a lot of people in the room. Red Buchanan came up and told me that Pauline and he had to raise \$22,000 for something. He said that wasn't what was bothering her and tried to tell me in secret but someone kept listening so we walked outside down some steps. Just before we left the room he put his finger on my neck to show me where (right side) he found a lump on Pauline's neck. Just as we reached the bottom of the stairs an alarm went off. It was a

round piece of plastic that someone  
had stepped on but it made a  
loud alarm. Bob came running  
down the steps really disgusted  
because it was making so much  
noise. He tromped on it a couple of  
times and it quieted.

1  
12-1-81

Parts I remember - I was in a Spanish style house. I ran down the steps on the outside of the house into a garden. I was running with some children I believe but don't know for what reason. I didn't seem to be frightened. Previously I had been in the large house or building looking for something.

3:10 A.M.

1-8-82

I am driving and suddenly realize I'm on the right hand side. There is a long stick of something like celery that I'm chewing on so I move it to the right and slide over to the left under the wheel.

Mimi & Pappy, Gex or Danny and Mark are with me now. I'm driving. The road is very rocky in places and the cars in front of me go around a big boulder. I swing around it also. At one place I turn into a drive way and then go on. There are very friendly-looking people around as I turn.

We come to this place. There is not much furniture. It is divided and there are places to sleep. The wood benches and walls are very pretty wood. Mimi is worried about Dion (or someone) sleeping next to a boy. (I don't remember who the boy was) Dan or Cree let them bed down one on each side of a partition. Then Mimi decides she is going to take their picture so Dan is trying to warn them.

At one point in the dream I'm taking 2 little boys for a walk. I think the dream was repeated. The time and little boy decide he doesn't want to go but Pappy is there also. We tell him into going and make it fun for him.

1-8-81 6:00 A.M.

I dreamed Bob and I went to a party. Bob ran out of the house saying he was not able to stand thing anymore. He threw himself on the cement patio and banged his head really hard. He was a little dazed

but got up and ran out. I had helped  
him up and ran back to get Heather  
a costume and then followed him. He  
was ready to get into the car but I  
asked him for the keys and he gave them  
to me. I ran around to the driver  
side but in the dream the car was  
now turned so that I was on the  
passenger side. Bob sat there laughing  
loudly and looking distressed.

In another part of the dream I saw  
the baby on a bed. Someone was  
supposed to be watching it but wasn't  
so it fell off. It wasn't hurt and seemed  
happy but startled.

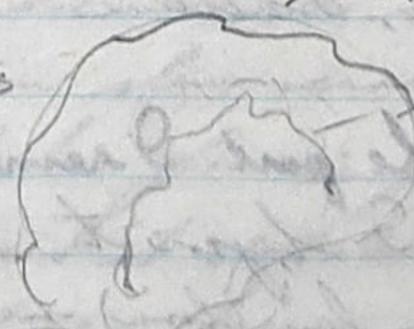

Dream

1-17-82

perhaps 2  
children  
at the base

Cut outs  
made of  
beautiful  
wood that  
I was  
told were  
very old

perhaps a  
carriage and  
horses?

I don't know what either depicted.  
I believe it was pioneer times.  
A man gave them to me to look at and  
a lady came up and very carefully took  
them in tissue paper. She seemed a little  
annoyed at the men for bringing them out

because they were so delicate  
and old. The wooden cut outs  
were about 2 or 3 inches high  
and about 2 inches wide at the base.  
Each was about 1/4 inch thick or less.

1-21-82

The only thing I remember is  
that I was going to speak to a  
group of people. I had some curlers  
in my hair because I had just  
put them in to prepare for the  
presentation. I remember a small  
room with several people. A woman  
was talking and a man sat beside  
me. We talked about my giving a  
speech, I believe.

2-5-82

The part I remember was  
when I began to dance - free form  
and my legs (lower) were very stiff. Then  
a black woman joined me and danced  
and I noticed how freely she moved.  
Someone else (Mary, I think) joined us  
for a few minutes and then sat down.  
My legs began to loosen up a little. When  
I woke up my lower legs were very cold. The  
night was cold.

2-8-82

I was with Sharon Bencke and she looked at some papers I had received at a work shop. The title was "fertility". I wondered how that got in there because the workshop had to do with teaching children

a part of another dream: Bob and I were baby-sitting 2 young boys about marks age or younger. Bob was on one side of an archway with the 2 boys who were having fun. Mark and I were on the other when suddenly I look backward see a large bluish looking object that looks like it almost explodes. It is a car that has hit the boys and is moving us in slow motion and a ball-like broken glass is forming. Mark starts toward it and I hold him. Both of us have strokes.

2-12-82

5: AM

I was at a church social. People were bring in food to a large hall. At one part in the dream I went to the bathroom. There were several doors

and people kept walking through.  
Occasionally a boy came in looking  
for a bathroom. He was in the  
choir. A man directed him to  
the bathroom on the other end and  
then after a while, I heard him  
singing with the choir. In a  
room right off the bathroom  
there were 2 women - each had  
on a very short blouse that showed  
an exposed midriff. Their fat  
stomachs hung out. Some  
brought in something wrapped  
in foil and said it must be too  
hot to take it to the kitchen.

All this time I was sitting  
on the toilet having a BM. I had  
a blanket thrown over my legs  
so as not to be too exposed. It  
didn't seem to bother me at all.

3-5-82

I was in a lower level room -  
perhaps a basement, looking for my hotel  
shoes and couldn't find them. I had taken my  
brown ones to the car. They had flat heels  
and were comfortable so I asked Bob if

he would get them. A fellow  
called on the phone and wanted to  
know if Nancy Patterson and I could  
meet to work together. Nancy kept  
getting on the phone cord and I asked  
her several times to get untangled  
from it. It was very noisy in the  
room and I kept moving the phone  
so I could hear. There was some other  
man in the background laughing and  
I was suspicious about the call.

The room was in disarray  
(another dream) Before that (I think) I had been  
trying to open a small wooden drawer  
from above that were built into the  
wall  They were different shapes  
and I couldn't find the one that I  
had opened before.

3-27-82

Remembering only bits & pieces of  
the dream; There were two rather burrow  
one looked good on the outside - may open  
it and there were rotten spots. I told her  
to cut out the rotten parts and she made  
a face that said okay. I picked up a burrow  
that looked a little rotten. I wish it was

a strong chocolate brown and the texture didn't seem right for a banana. A man had put the banana that May picked up back on the plate of fruit and cottage cheese. It was almost covered with cottage cheese.

4-30-82

A man was going to kill a young woman by poison I believe. I realized what he was doing so ran to get help. I woke up before I got to a house to call police and an ambulance.

1-2-82

I was working with Sharon Bencke in Sp. Ed. I had gone to another classroom to help that day with the idea I would be working with a group of kids in that classroom.

I had to go back at the end of class and get my coat and purse. On the way back I had to go through some large building and had a time finding the way. A janitor opened a side door and let us (Teri and Mark and someone else) out. We came around the corner in time to see Mrs. Bencke at her car just ready to leave.

She came back with us to the classroom. I wanted to talk with her about how to teach the group but didn't because I felt rushed. As we went out the door and looked back I saw Mrs. Bencke's daughter and a small son in bed. The daughter was just about asleep but both woke up and left with us. The little boy was still inside so his sister went back to help him.

12-31-83

7:46

I had an uneasy feeling. I had done something wrong & I had an uneasy feeling.

I dreamed I was at a large gathering of children & adults. There were balls of yarn that people had. I wanted a lavender or purple color and someone was to throw it to me but instead thought another woman wanted it so threw it to her. I was then unable to find it. I did find a lavender one mixed with other color that a small boy had but it was not suitable. I was going to make several scarves.

I had the feeling when looking at the magazine that he had done something wrong & I had an uneasy feeling.

Earlier in the morning - just before the dream I remember another. I was looking through a magazine that had a story about Pat Palmer. The pictures were in color (size of Life magazine) and beautifully done. Some were full size pictures of him, others were pictures that he had painted. I closed it and was looking for it to show to Joan but found it just as I woke up.

Another part of the dream was: I was in this large school. We were moving to a much larger place. Bob Smith

had a big beautiful desk and  
I was arranging things on it.

He had a lot of small figures along  
the back edge of the desk and I had  
to be careful not to disturb them.

Later I was bringing a blanket  
or bedspread to Mr. Floris's office.  
He had a beautiful wooden desk also.  
The scene changed and I took the blanket  
and placed it on a bed near by where  
some children were playing and I  
had to wait for them to get off  
before putting it on.

I was also then looking to see  
where the E.H.A. office but didn't find  
it when the dream ended.

7:30 A.M.

1-2-84

Part of a dream - I'm taking candles or  
something packaged I think, off an apparatus  
that is going around in circles, checking them  
for ? and putting them back on. This is  
a recurring dream.

6:00 A.M.

1-3-84

Pappy was with me and I was  
using the telephone. The phone had several  
lines and was an odd shape. I called Jim  
to see if Pappy could go with me. He had

to call back. Mark answered first  
and then I pressed the red button and  
got the right line. The house where the  
phone was, was small and seemed  
crowded. I believe I had come home from  
school.

1-5-84

I was at an airport and this woman  
was clearing the runway (unlike an airport  
just a runway) she was <sup>on her cycle,</sup> running at one  
point and her legs, or something on her legs,  
shook up like a neon light in a zig-zag  
pattern and longer than her legs. At another  
point Poppy or some small girl had  
ventured out a little but as though to  
go out toward the runway and she  
shook a light to urge her back  
off and she immediately did go  
over to the side.

Later Donna Poade (I think)  
remarked that we both were dressed  
in unmatched clothing not matched  
as we had been before we changed.  
I had on a blue sweater, tan shirt,  
loud checkered <sup>slacks</sup> slacks & checked brown  
socks. We were in front of some large  
building.

1-8-84

7:19 AM I went to a school with mother to see Nancy <sup>Spive</sup> graduate from grade school. We were in a large room with many people when to my left I could see through the door the graduating class filing down steps to go out. They were walking fast so we didn't get to see them very well. We then went quickly out the door and to their little cottage. It was almost like a place where you would camp - very plain - nothing in it, rustic. I changed clothes. I had on a bathing suit with a coat over it. The bathing suit didn't fit too well and had a white part extending just under my right arm to the back. I adjusted it and decided to leave it on.

Mark was there now and we cleaned up the place up.

Janice had come in for a few minutes but had to push out in a hurry to get back to her friends. I had urinated in a plastic container and had to dump it into some small shrubs outside because there were no bathrooms.

Mark and I went out to take some

things to the car. We walked along  
ways in one direction. I told Mark  
we were going the wrong way but  
he insisted otherwise. Finally we  
came to the ocean and could see  
the coast so knew we had gone in  
the wrong direction. Then Mark knew also  
and we started back in the opposite  
direction. To the left of us facing  
the ocean was the Vatican - huge buildings  
and beautiful.

~~7:03 AM~~ 6:10 AM 1-12-84

Mark and Cree were with me.  
We had the beautiful, cute little  
puppy. It was a very small, short-  
haired, brown puppy. It was  
running all over the field in front  
yard that was large, probably in  
the country, maybe in South Dakota  
on the farm. Suddenly when I  
looked at him across the yard  
that had a lot of weeds it looked  
like it was limping. When I went  
over to pick him up I saw that  
he had one leg cut off completely  
and another damaged. We decided  
that he had to put killed because he

was suffering too much and  
losing too much blood so  
Mark and I went to look  
for something to put him  
out of his misery. I looked  
around for what the pup had  
run into - some sharp instrument  
that would have done the damage.  
As I held him he didn't seem to  
bleed a lot but was in some  
pain and at last he died in  
my hands. I was glad  
that we didn't have to kill  
him. I knew I couldn't have  
done it.

7:50 1-15-84

(I didn't write this down right  
after I got up so may have forgotten some.)

I was at a gathering of people somewhere.  
Dora Gulley was there and so was her husband  
or father(?) He was much smaller than her husband  
and he collapsed. Then he looked dead but  
I gave him artificial respiration and he  
survived. Dora didn't think he could do  
anything but I worked with him and  
got him to walk and I remember he

was quite alert and doing well.

6:08 1-18-84

I was going to attend a funeral of a small girl. At our present Cree & Valeri were there and Cree was going to play the flute at the funeral. Then I was at Barbours and they had to leave.

I was looking for a flute but they had to borrow it for Cree to use.

The upright piano kept playing but it was like it was a radio also and I couldn't find the off switch. Tammi

and Tina were trying to find it also. The room was very messy

and we were trying to turn it off and then leave. I didn't know if

one of the Barbours girls was home but didn't want to wake them up if they were.

2-15-84

Part of a dream - I was driving the motorcade into a parking place so I could go into a car parts store. The parking place was very small and boxed in and I had to back the car up a little to make it fit. I believe Bob started it up. I went into the store.

3-5-86 5:15 AM.

I drove down a long country road. There was an entrance to a farm where I could buy apples. First I drove down the road and was going to get out and pick some. I didn't know where to pay for them or get permission to pick them.

I got into the car and drove a short distance and saw a farm house and turned around in the driveway and went back up the same road I'd driven before. I came to an entrance and waited for several people to get through. There were three people behind me and someone called my name but as I turned around to answer I realized they were calling someone else. They closed the door. The woman at the gate was still busy but just across from me a phone rang and when I answered it was able to order some apples. The lady on the phone said to

go on down the road again and  
I will pick some just beyond  
the fair house.

3-7-86 (6:30A)

The only part of a dream I  
remember is blowing mucus  
mixed with blood from 1 nostril &  
catching it in my hand in the  
bathroom & then using a piece of  
toilet paper to wipe it off.

3-9-86 7:15AM

(I awoke earlier and couldn't  
remember any dreams so decided to  
go back to sleep and dream.)

I was at a school preparing  
for school to begin. (I was a teacher.)  
Mr. Della (per assistant principal at  
Peterson) was ready to lock up so  
I picked up my things and put them  
into a shopping cart to take back  
to another room. There was a small  
motor that I tried to push in front of  
of the cart but it was difficult.  
Someone took the motor for me  
but I was worried about how the  
woman was taking it.

Another woman in a car had driven

through a gate into a large garden  
so I went through the gate and  
found her. I asked her about the  
other woman who had taken the  
motor and she wasn't pleased with  
the way it was being handled.

The scene changed after I  
went back through the gate and  
closed it. I made sure it was closed  
tight.

I walked up another hill  
and around a corner and could see  
a great distance over a large city.  
It looked like it was in another country.  
I could see 2 large buildings - one  
was a large white cathedral and the other  
was a flatter tan building. I got my  
bearing and was looking for a museum.  
I needed to get a membership card. I  
was at the museum, walked through  
it and to a building to the left. I  
heard a man say, "It's closed." But  
then an older man came outside and  
was talking to him. I was waiting  
for them to get through and was  
confident that I could get my  
membership card. (The building in this

dream were very familiar and I had the feeling I had dreamed about them several times. I usually have a time finding them and have to look for them in my dreams.)

3-12-86

I was at a school teaching. I remember opening a sliding glass door and going into a room. I only remember as I was going back to my room the psychologist, Mr. Sonnenshine, said, "Wait, I want to show you these. I know you would want to see them." He then dropped 2 beautiful little birds (imitation) into the center of a flower. They were very colorful, tiny birds and looked so beautiful in the center of the flower. When I returned to my room I was going to drop something off for another teacher and I asked her if her room was unlocked. (The alarm woke me up.)

5:15 AM 3-14-86

Nancy and I were in a car and - Nancy driving and I in the passenger seat. Vicki was in the back seat. Nancy was just telling us something and then Vicki had to get out of the car. Then as we drove on I looked back and saw Les holding a tiny baby bundled in a blanket and Tammi & Teia were walking with them only they (T+T) were much smaller than they are now. Ahead of us was a beautiful green scene in the mountains on the right.

3-28-86 6:00 AM

I was at a school with Bob. We had to carry some heavy backpacks & I followed carrying a smaller one. He couldn't remember where he parked the car so we looked for it for a while then we met John Vasconcellos (state legislator) and said hello.

In another dream I was looking for my house. I went into one where Teia was

was and Nancy. Someone outside wanted to know Nancy's address and as she almost gave mine to the woman I corrected her because for some reason the woman wasn't supposed to know. Then as I walked down the sidewalk there was a truck parked - a large one with a big bed in back (behind the truck) and there were a lot of people in it. Then a neighbor told me that Dennis Owen was really having problems and asked me to talk to him. I said that I would. (It was not Dennis' mother or grandmother that asked me.)

I had to go home before I went to work and realized it was really late 9:45<sup>AM</sup> and I was supposed to be there at 8:00 A.M. I was going to call and tell them that I would be there soon.

4-27-86

Mark & Bob and I were in an upstairs apartment. There was parking on the upper level so we had to drive the VW bus down to the street. I was really good at maneuvering it in the narrow space to the street. One time I went out to get the car

in the back and Bob had said it was there. I knew it was on the street level out in front but when I went to get it, it was not there so I went back up again. When I didn't find it I went back down and by that time Mark was driving it around the corner to the front. Bob was going upstairs to get me so I called to him. Then I went around to the driver's side (then I went up.) <sup>(another</sup> ~~dress~~) I rolled down a hill in a wheel chair to meet Pauline. I had taken the wheel chair because it was faster in going down hill. She was cooking something apple sauce, I think. So as soon as she finished we had to hurry. The wheel chair was broken. There were no wheels on it and it wouldn't go so I got up and walked so I could go faster.

4-30-86

I was going to a party given by Pauline. We had gathered at someone's house and were going to go to a place in Los Altos from there. My bicycle was there and I was going to put it into the bag but some lady wanted to ride with me

well as Diane so I started to  
take the bike out to park it and  
leave it and then planned to pick  
it up on the way back. The bug  
was parked under a veranda  
and it was almost as though it  
were inside the house. I had  
not received a formal invitation to  
the party and asked someone where  
it was to check on the location.

8:00 A.M. 10-11-86

The only part I remember is dancing with a small girl. There was a whole group of young girls all dressed the same in a long pale peach dress. I picked a large chubby girl and we danced to real soft music. In fact it was so soft I could hardly hear it.

I was to meet Natalie and when I returned with the girl to some street she was waiting. Her husband wasn't there - apparently he had to go home early.

4-19-86

I attended the State CATE SOL  
Conference in Oakland at the Hyatt  
there. There were several good workshops  
I attended - on reading and writing and  
testing. There was a neat woman there  
that I had met at Pelanga and also  
started a private pre-school for  
teaching well to do children Spanish. It's  
in Palo Alto. She is from Guatemala  
I think.

3-27-86

I have been really busy at work  
testing kids in the KAS (Language Assessment  
Scales) and feel very rushed. I must  
look to the Holy Spirit to guide me and  
keep me on course with peace and hope &  
love.

(DREAM) 6:00 P.M. 6-7-86

I was at Jean's and Nancy called  
Dad to pick us up. Mother and Dad came  
in and I said hello to mother and  
gave her a hug. Then as she walked to  
another room, Dad stood watching  
mother go into another room and I  
stood there watching him and waiting  
to say hello. When he turned around

He said, "Oh, I forgot to say hello."  
Then he hugged me and my ~~head~~  
head was on his chest and he  
kissed my head.

DREAM

2:30 P.M. 9-14-86

I had to put some thing into a car of a friend of Bob. When I went to get into the trunk I had to ripel layer and layer of compartments after I unlocked it. I finally put something into it and then put ~~it~~ closed every thing layer after layer back up again.

Before I found the car I had walked into a field to look for some one. Morgan (Marilyn) and someone else was standing by a fence and I walked to her.

7:00 P.M. 11-16-86

Part of the dream I remember. I was trying to find my way to the part of the hospital that was the main hospital. I was trying to find my way through all the repair work. There were painters and carpenters all over and I had to jump over wet paint and debris. I met a couple other women also looking for the main building but it seemed that I was leading the way.

1-2-87 7:45 AM

I dreamed Peggy Coleman wanted me to have a baby for her. I was afraid the baby would be born with something wrong because I was too old.

In another dream I was in an old shed with some children showing them something. Then they went to the other end of the building so I closed and locked the end I was at. I went around to the other side and tried to close it - it rolled down - but it wouldn't stay clear down to the ground.

Another part I was going up and across some high stairs to go to a room. I opened the door at the top but didn't go in because someone was speaking and I was either dressed wrong or didn't belong with the group.

2-24-87

The only part of the dream I remember Virginia Keller gave some birthday gifts to Bob - a small bell and 2 rackets and some bologna. She then gave me some bologna in a small plastic sack. I was sitting next to one of the Keller girls and

I couldn't remember her name.

3-25-87

I was at Sony & Gayles but it was a strange house. They were in one room and we were in another. They were having a party with some friends. Then they came into the room where we were. Later I went into the bathroom and changed my panties. Still later Bob said after we ate that. He always had to eat first - before ship and he never liked it.

3.14  
12-13-86

Someone very special  
Someone always far away  
Excitement at each homecoming  
When he has arrived.

Quiet humor, fun and serious  
Spiritual and caring  
Sometimes moody  
Sometimes silly, too

One very special Christmas  
We all remember happiness  
His and ours.  
In years gone by it still remains  
In memory and always will  
A brother to whom I seldom say  
I love you and I care,

Happy birthday -

Tall and light with heart of gold  
Ready to help all who come,  
Little boy of long ago  
with cowboy hat of red  
Placed on your head to nap.

Showing up a struggle  
Pain and hurt and loneliness  
Hopefully now forgotten & forgiven

Love yourself and see the joy  
in life.

Share your joy with all  
Let your heart be lightened.

Your roughened hands so very  
skilled.

Reaching out to everyone in need.  
Let your heart of gold bring  
joy and light to you and  
all surrounding.

Notes

1-1-82

I have the strength to accomplish  
what you have in mind for me.  
Lord help to allow me to give freely  
of my love and to accept love freely.  
Lead me to the path you want me  
to take using the intellect and  
intuition you have given me to  
the fullest.

1-1-84

Guide me, Oh Lord in the path  
that you want me to go. Lead and direct  
me to do your will. Let me live  
life to the fullest. Guide me to center  
my energy and to use my talents  
in the way you would have me. Give  
me strength and courage to follow you.  
Thank you for all you have given me.

1-2-84

I was to have met with  
Elizabeth Jones this morning to pursue  
the idea of a parenting course at a  
community college. She postponed it until  
Saturday. Some ideas I have: have several  
speakers during the course; have involvement  
of group in most sessions; don't have too  
much lecturing; required reading? Perhaps  
have people share what they have read,  
what they picked it, how they used it;  
what topics do we want to pick? include  
one session on psychological effects of nuclear  
warfare; speaker to address this - Perry Johnston  
or Helen Mehr  
Program at Agnews

1-4-84

Today may I do your will,  
Oh, Lord. Guide me in what you  
want me to do. Thank you for your  
help each day.

I feel a real need to share  
with other people ideas. How can  
I best use my talents for the betterment  
of mankind? I have given so much  
thought to going to college but feel  
so selfish. Would it help me to make  
better use of my time and talents?

1-6-84

I pray that the decisions I make  
will be your will, Lord. Guide me  
to those things you would have me do.  
If in some way I can better serve  
others let me then continue to  
go to school. If you want me to  
work harder toward stopping nuclear  
weapons guide me in that direction.

1-9-84.

Let me love others as you would have  
me love; forgive as you forgive. In all

things let me do your will, not mine. Let me center my life so that I can accomplish what you would have me do. Let me help Janie in ways that will allow her to do your will, use her talents to the fullest and guide her children to you. Let me help Mark through this trying teenage period, keep him in your love and guide him. I am so thankful to all you have given me and continue to give.

2-18-84 (5:15A)

Thank you Lord for all you've given. Give me faith and love and guide me in doing your will not mine. Let us make the choice of schools for Mark that will lead him closer to you.

I miss Nancy and pray that this experience in Mexico will enrich her and lead to friendships that will give her happiness and trust of others. Guide her in your love.

Thank you for Diane whose spirit is so kind and good. Continue to guide her in her help to others allowing time

for her to refresh herself. Keep her close in your heart and spirit.

Lord, help Bob in this time of worry, let him know you are there in your strength and love. Give him hope, peace and love and faith. Let him know you take on his worries, make decisions and guide him. Let him know the good he has done for his family and continue to do and accept his failings and know your abundant forgiveness.

I Started A COURSE ON MIRACLES 3-10-86

2-27-86 I will try today to keep good thoughts about all of the people around me and show my love. It is hard for me to remember to tell people the good things they have done, said or are. How good it is to know you are appreciated. I want to let God's love show through. I pray that I may be able to do His will each day. I pray that Bob and I may be able to share more in a spiritual way.

3-12-86

I want to make this day fall in love and understanding and action. I'm always striving to do God's will and to overcome procrastinating. Yesterday, I made a call to a counselor at SCAS for the DOTE meeting today. I felt better knowing it was done and pleased with getting the information I needed.

I feel a need to focus more in what needs to be done and keep trying to do that.

ELA-DR KRASHEN W. Shop 3-14-86 3-15-86

I will try to live each moment fully - live in the present doing the best I can each day.

I ATTENDED A PFS WRITE 3-15-86 WORKSHOP TODAY - at PONDEROSA given by MIKE GOLTZER & MARI SOTO with help of students ERIC & ROB.

3-16-86 Bob, Nancy & Diane shared Course & course in miracles. 3-17-86

Yesterday we took Mimie's book Arroyo Seco book over to her. Bob had it bound Saturday and surprised her with it. The mountains were beautifully green and fresh. It was a nice drive.

Today I will try to treat others  
with kindness and understanding.

3-18-86

I have decided that at the next  
Language Development <sup>Assistant's</sup> meeting of  
Peterson we will each bring  
some ideas on how to teach  
self-esteem to the students.

3-19-86

If there is something to be  
done or changed then it is necessary  
to truly believe that it can be done.  
In order to heal there must be  
no doubt but complete faith.

3-25-86

If God is to guide me in  
what I do then it is true that I  
clear my mind of my own attitudes  
in order to hear what He is saying.

4-25-86

Listening to the Holy Spirit  
rather than the ego will make  
a more joyful, peaceful life. It  
gives a peacefulness within. Seeing  
in others their goodness which God  
has given all of us will bring about  
better communication.

4-19-86

I attended the State CATESOL Conf  
in Oakland at the Hyatt. There were  
several good workshops. I attended one  
on reading, writing and testing. There was  
a neat woman there that teaches at  
De Anza and also started a private  
pre-school for teaching well-to-do  
children Spanish. It's in Palo Alto. She  
is from Guatemala.

4-27-86

I have been really busy at  
work testing students in the LAS  
(Language Assessment Scales) and  
feel very rushed. I must look  
to the Holy Spirit to guide me and  
keep me on course with peace, hope  
and love.

10-15-86

I attended a one day Conference  
Sponsored by CAFE and several School  
Districts. The Speaker - Spencer Kagen, spoke  
on Cooperative Education. A workshop  
on Changing yourself - Steps to do that  
given by Diane Giudici (phys. therapist)  
was interesting and helpful. Another  
workshop given by a Beyond War group -

An English lady and 2 others was  
good.

11-16-86

Today I will fix a turkey dinner  
for Nancy's birthday. She invited Jeff  
also.

1-1-1984

In your heart forgive  
For all those times  
When harshly you were dealt with.  
Send forth your love -  
your kindness  
your gentleness  
To those you love so dearly.

Remember the light of love  
That shines within you  
To be there for you  
And those so dear to you.

Let joy within fill your  
daily life  
Relax and let His goodness  
shine.

Appreciate the one you are  
And all the talents given  
To share so generously  
with all.

Know that to give freely  
Will bring His love  
To you and those you care for  
Have faith and love and hope and peace

Young love found and  
shared

To endure forever.

Commitment through happiness  
and tears

To bend so far for love

With heart and mind

Trying hard to follow Him

Who showed the way.

Failing, oh, so often

But apologize and

Try again so many times.

Always forgiven and

loved and endures.

I stumble in injustice

Rudeness and my pride

Yet compassion shown

And again to stand

Beside that love who endures.

Joy in loneliness and innocence  
With rosy cheeks and skin so smooth -  
A smile given for so little  
received.

Just to rock and cuddle and  
Sing and feed and care

So lonely now with beauty grown  
In mind and body

One who cares, sometimes  
lonely but so little complaint.

Trying to decide so many growing-up  
things

Still with an innocent joy  
Laughter, tears, impatience

And then to try again  
To grow and be the individual  
Step by step.

Ja J.

12-1982

When moments, Oh so long ago  
you waited for attention  
And then in slumber dreamed of  
love

And waited til it came.  
So long it seemed - so long it was.

Let not those moments long ago  
Hinder now your love  
your caring

Release those fears  
That sadness

And let His light endure  
And lead you to his  
Flame of love  
And give to all so near.

12-1982

When you were yet in cradle  
Alone and sad and crying  
No one to sooth your deepest needs.  
Forgive in deep compassion  
So now commit your deepest love  
To those so well deserved  
And more important yet to  
Love yourself so well deserved.  
In order to release that love  
And make it grow forever  
In you and all beloved
